

# Hasmonean High School for Boys

KS4 Options 2025-26

אל תקרי בניך אלא בוניך

# NEW BEGINNINGS

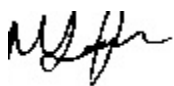

Choosing your GCSE subjects is one of the first opportunities you will be given to direct the course of your adult life. One or more of the courses you choose may be directly linked to a future career or begin a journey into a subject which lasts a lifetime.

At Hasmorean, we believe that you should be given the widest range of high quality courses from which to choose. As well as studying Jewish Studies, English, Mathematics and Science, you will choose from a broad range of academic, talent-based and career-based courses. In addition to these examined courses, you will have many enrichment subjects to choose from to educate you about a variety of areas that you have not yet encountered.

When choosing courses, ensure that the ones you opt for play to your strengths and also establish a broad foundation upon which you can further develop. After reading through this brochure, speak to your parents and teachers, as well as students in higher years, to ensure you know exactly what a course involves. A course may sound exciting, but is it appropriate for you? Don't wait until it starts to find out what it involves: do the research now.

Making choices about which GCSE and enrichment subjects you will take is a very important time in your life; it is also a very exciting one too. Take the decision-making process seriously. Prepare yourself to be truly inspired by the world of learning that awaits you.

Choose well!

**Nathan Heddle**  
**Assistant Headteacher – Teaching, Learning and Curriculum**

# CHOOSING YOUR OPTIONS

During the first two years at Hasmonean High School for Boy, alongside the comprehensive programme of Jewish Studies, each student is introduced to a range of subjects based on the National Curriculum. It is not possible to study all of these subjects to examination level during Years 9 and 10, but all students should maintain a breadth in their studies, however, students will need to complete the EBACC, a government-based measure of various subjects. All students will need to complete (outside English, Maths and Science) a language and a humanity. Students who have a minimum expected grade of below a 4 for a language in GCSE or have an EHCP will have the opportunity to discuss how the EBACC works and whether that is best for them and what alternatives can be made. The purpose of this booklet is to assist students in making informed decisions, in consultation with their parents and teachers, about the GCSE and BTEC courses they will study.

Hasmonean High School achieved excellent results in both secular and Jewish Studies. This was confirmed in our most recent OFSTED (October 2023) and Jewish Studies inspections (December 2023) where inspectors reported that all aspects of the provision were 'Good' and 'Outstanding'.

## **EBACC**

The EBacc is a group of 5 specific GCSEs that are recognised by employers and universities as giving a broad and balanced curriculum. All students will need to 'complete' the EBACC as a grouping of subjects. The government uses the EBacc as a way to measure school performance.

For many of our students it provides a good benchmark to help them receive a solid, broad education. The EBacc is compulsory and consists of a pass in:

- English Language and Literature GCSE
- Mathematics GCSE
- Two Science GCSEs
- Modern Foreign Language GCSE
- Geography or History GCSE

(A pass constitutes a grade 5 or above)

## **COMPULSORY CORE COURSES**

- Jewish Studies - For suitable candidates this may include, GCSE Biblical Hebrew or iGCSE Religious Studies
- English Language and Literature - GCSE
- Mathematics - GCSE
- Science - GCSE
- PE - Non exam
- EBACC (Language and History/Geography)

## **THE DECISIONS YOU WILL HAVE TO MAKE**

The decisions you make in Year 9 are important because they control the next 2 years of your school life and can have implications towards what you go on to do after your GCSEs. In Year 9 you will have to decide which subjects you want to focus on over the next 2 years (Years 10 and 11). Some subjects are compulsory but others are for you to decide – your options. Because you are studying fewer subjects, the ones you choose can be studied in greater depth.

## WHAT'S YOUR PASSION?

The subjects you are best at are normally the ones that you are passionate about. Think about the subjects you enjoy studying and why. Do they bring out your creative side? Is it other languages or cultures that you love? Or maybe you're the sort of person who only feels safe whilst holding a calculator. Whatever your thing, choose subjects that inspire and motivate you.

## ANYTHING YOU CAN DO...

Think about people you admire and why – is it Richard Branson for his business brain or maybe J K Rowling for her writing? Do you think you could give them a run for their money? Talk to people and find out about what they studied and why.

## THE FUTURE

Although the choices you make are very important, don't worry too much about the future. Many people at your age are unsure about what they want to do with their lives, so just remember to choose a balanced set of subjects you enjoy.

## TOTALLY CONFUSED?

If your brain is a muddle and you don't know where to start, why not speak to the people that will be teaching you. They will let you know what the lessons involve and you'll be able to see if it's for you. Remember though, think about what's best for you, not just what pleases your friends, family and teachers.

## OUTSIDE THE CLASSROOM

If the subjects on offer don't inspire you or you want to try something different, remember there is a lot you can do outside the classroom. You can meet new people, get experience, knowledge, you can socialise and, hopefully, find your calling. Why not volunteer, get active or look for work experience that fits around your spare time?

## TOP TIPS

- Be unique; don't take a subject just because your friends have. Branch out, take the subjects you love and see it as an opportunity to make new friends.
- If you have no idea what careers interest you, choose a broad range of subjects.
- Some GCSE courses lean more towards coursework and others are much more exam-led. Which do you prefer?
- Be realistic in your choices. Choose the subjects that will give you the best chance of getting good grades.

# JEWISH STUDIES

## JUDAISM NACH GEMORA

### CHUMASH

CONTACT:	RABBI J. GOLKER/RABBI G. LISS
----------	-------------------------------

#### **WHAT WILL I STUDY?**

The Jewish Studies curriculum for Years 10-11 consolidates all students' learning skills and broadens their knowledge and understanding of גמרא, חומש, נ"ך and דינים. Students are expected to become independent learners and use their learning to enrich their understanding of their own תורה learning.

More emphasis is given to chavrusa learning as students mature and grow older.

When boys reach Year 11, they are fully integrated into the Beis programme which offers a wide range of shiurim, exposing students to yeshiva style learning. In addition to daily gemara shiurim, boys will have the opportunity to hear practical halacha from Rabbi Rosenfeld, parsha insights from Rabbi Hartman, as well as shiurim in hashkafa and contemporary topics from Rabbi Golker, Rabbi Landau and Rabbi Rowe. Guest lecturers are also a regular feature of the Beis.

#### **HOW WILL I BE ASSESSED?**

The assessment schedule follows the school guidelines of continuous assessment through homework and standardised assessments.

# BIBLICAL HEBREW

LEVEL OFFERED:	GCSE
SUBJECT CODE/EXAM BOARD:	EDEXCEL/1BHO
CONTACT:	MRS M. GOLDBLATT

## WHAT WILL I STUDY?

This course aims to inspire and challenge students by engaging them in the process of enquiry into Biblical Hebrew. You will study a range of Biblical texts to discover aspects of the language and develop an understanding of its structure.

Throughout the course, students will acquire a knowledge and understanding of the literary, contextual and grammatical features of the two set texts studied.

Biblical Hebrew will be offered as an alternative to the IGCSE RS. The set

texts are:

- Set text 1: Gideon and Abimelech – Judges 7, 8, 9
- Set text 2: The reign of Solomon – I Kings 2, 3, 5

## HOW WILL I BE ASSESSED?

There are two exam papers.

Paper 1: Language 50% - 2 hours

Students will need to:

- Answer comprehension questions based on unseen passages of Biblical Hebrew
- Translate unseen passages of Biblical Hebrew into English
- Choose between answering grammar questions or translating sentences from English into Biblical Hebrew

Paper 2: Literature 50% - 2 hours

Students will need to:

- Answer comprehension and grammar questions about the set texts
- Translate passages from the set texts into English
- Evaluate the use of language in passages from the set texts
- Write a short essay comparing themes in the two set texts

# RELIGIOUS STUDIES IGCSE

LEVEL OFFERED:	IGCSE
SUBJECT CODE/EXAM BOARD:	(4RS1)/EDEXCEL PEARSON
CONTACT:	RABBI Y. BENNETT

## WHAT WILL I STUDY?

The course aims to provide a broad understanding of the key values and beliefs of Judaism. In addition, students will learn how modern British society responds to the topics and issues covered in the course.

Paper 1 – Beliefs and Values focuses on beliefs and values of Judaism including the universe and place of human beings, life and death, peace and conflict and rights, equality and social justice.

Paper 2 – The Religious Community paper contains an exploration of the origins of Judaism and their impact on the community, celebrations and pilgrimage and worship and practice.

## HOW WILL I BE ASSESSED?

All examinations take place at the end of Year 11, there is no coursework or exams until the end of the course.

There are two exam papers.

Paper 1: Beliefs and Values 62.5%

1 hour 45 minutes

Students will need to:

Answer four, four part questions each worth 25 marks. Each question has a 3 and 4 mark short answer question, a 6 mark explanation question and a 12 mark longer evaluation question designed to assess knowledge and understanding.

Paper 2: The Religious Community

1 hour 30 minutes

Students will need to:

Answer three, three part questions, each question is worth 20 marks. Each question has a 4-mark short answer question, 6-mark explanation question and a 10-mark knowledge and understanding question.

# ENGLISH LANGUAGE & ENGLISH LITERATURE

LEVEL OFFERED:	GCSE
SUBJECT CODE/EXAM BOARD:	AQA ENGLISH LANGUAGE: 8700 AQA ENGLISH LITERATURE: 8702
CONTACT:	MS M. NAVA

## WHAT WILL I STUDY?

### ENGLISH LANGUAGE

The English Language GCSE will encourage students to read a range of challenging literary and non-fiction texts from the 19th, 20th and 21st century.

Students will learn to write for different purposes and audiences. There will be a focus on clarity and accuracy in the writing of standard English, including vocabulary, spelling, grammar and punctuation.

Students will develop their speaking and listening skills, in particular your confidence in formal speaking.

### ENGLISH LITERATURE

The English Literature GCSE will encourage you to read a range of classic and post-1914 literature, including Shakespeare, drama, a novel and a selection of poetry.

## HOW WILL I BE ASSESSED?

### ENGLISH LANGUAGE

There will be examinations at the end of the course. Reading and writing will be equally weighted in the assessment.

A Spoken Language endorsement, based on a formal presentation, will be listed separately to the GCSE.

### ENGLISH LITERATURE

There will be examinations at the end of the course. Students will be assessed in their reading of 'unseen' texts as well as 'set' texts. The quality of your writing when responding to texts will also be assessed.

# MATHEMATICS

LEVEL OFFERED:	GCSE
SUBJECT CODE/EXAM BOARD:	EDEXCEL
CONTACT:	MS M. SUCHAK

## WHAT WILL I STUDY?

The areas of study are:

- Numbers and Proportionality
- Algebra
- Geometry, Shape and Space
- Statistics and Probability

The scheme of work is topic based with the intention that all groups work on the same chapters concurrently. This will enable ease of movement between groups.

Most students at Hasmorean High School for Boys are entered for the Higher award. Students in the lowest set will take the Foundation tier (alongside any students in the set above who are having particular difficulties in Mathematics.)

## HOW WILL I BE ASSESSED?

This examination has two tiers of entry – Higher (9 to 4) and Foundation (5 to 1). Both tiers are examined by two calculator and one non-calculator paper at the end of Year 11.

There is no coursework for this GCSE.

# SCIENCE

LEVEL OFFERED:	GCSE DOUBLE SCIENCE, BIOLOGY, CHEMISTRY, PHYSICS
SUBJECT CODE/EXAM BOARD:	AQA
CONTACT:	DR A. WHYTE

## WHAT WILL I STUDY?

Hasmonean High for Boys offers varied pathways in which Science can be studied:

GCSE Combined Science (Sets 2 to 4 - 2 GCSEs)

GCSE Biology, Chemistry, Physics (Set 1) - Triple Science (3 GCSEs)

All levels of the science GCSE will be taught by more than one specialist teacher. Each student's individual pathway will be chosen as the course progresses.

In Year 9, Sets 1-4 all follow the same pathway as they are mixed ability. In Year 10, Triple Science teaching begins and students who are having difficulties are placed into a nurture group. Students in this class will likely sit foundation but can move to the higher tier with consistently high results.

## HOW WILL I BE ASSESSED?

GCSE - All external assessments will be taken at the end of Year 11. Students will also be assessed internally throughout the course. The GCSE will be graded 9-1.

# BUSINESS STUDIES

LEVEL OFFERED:	GCSE
SUBJECT CODE/EXAM BOARD:	EDEXCEL BUSINESS 1BS0
CONTACT:	MRS P. KLINGHER

## WHAT WILL I STUDY?

The course will enable students to understand the challenges facing small businesses in the modern UK trading environment. They will be taught how entrepreneurs work to set up and develop a new business, as well as how businesses grow. It will enable students to appreciate the stresses of being in business operating in a competitive environment, including the financial, marketing and manufacturing challenges in building a business's trading operation in the 'real world'. The course will provide a basis for the concepts that can be investigated in the Business and Economics A-Level courses taught in the Sixth Form.

## HOW WILL I BE ASSESSED?

Theme 1 (taught in Year 10): Investigating small business (paper code 1BS0/01). This written exam paper has 90 marks available and the exam lasts 1 hour and 30 minutes. It is worth 50% of the overall GCSE qualification mark. It is composed of multiple choice, short-answer and extended essay case-study based questions.

Theme 2 (taught in Year 10 & 11): Building a business (paper code 1BS0/02). The written exam paper has 90 marks available and the exam lasts 1 hour and 30 minutes. It is worth 50% of the overall GCSE qualification mark. The exam is also composed of multiple choice, short-answer and extended essay case-study questions.

Year 11 will focus on exam technique, revision and consolidating the topics from the two themes.

## ENTRY GUIDELINES

Students should have an interest in current business activities as they exist in the news or business environment. They will be required to answer questions on small business case study sources with an ability to analyse and evaluate, as well cope with multiple-choice style questions and simple business financial calculations.

# COMPUTER SCIENCE

LEVEL OFFERED:	GCSE
SUBJECT CODE/EXAM BOARD:	AQA 8525
CONTACT:	MR R. KESSLER

## WHAT WILL I STUDY?

Computer technology continues to advance rapidly and the way that technology is consumed has also been changing at a fast pace over recent years. The growth in the use of mobile devices and web-related technologies has exploded, resulting in new challenges for employers and employees.

A computational thinking exam provides an academically challenging programme. Students will be building on their knowledge of the Python programming language, which they started in Year 8. The skills developed here will help students who would like to progress on to an A Level in Computer Science, as well as being able to apply them to other subject areas. Critical thinking and problem solving are key components of computational thinking and much in demand elsewhere.

## WHAT WILL I STUDY?

Students studying this subject will learn how to decompose a problem, filter all but the essential aspects and use logical thinking to arrive at a solution. They will learn about both the theoretical and practical aspects. In the theory portion, they will learn about mathematical operators, Boolean, variable declaration, iterations and subroutines amongst other aspects. In programming they will learn how to create subroutines (functions and procedures). They will also be able to write and understand algorithms amongst a wide range of other concepts.

## HOW WILL I BE ASSESSED?

Paper 1 – 1 hour 45 minutes.

Programming and algorithms. Code tracing, writing code, constructing algorithms. 50% of total GCSE.

Paper 2 – 1 hour 45 minutes.

Data representation, computer systems, computer networks, databases, cyber security, ethical, legal and environmental impacts of digital technology on wider society. 50% of total GCSE.

Programming Project – There will be a programming project which will take approximately 20 hours to complete. This will be done in lessons and at home. Although not marked, it is a course requirement.

This course is very demanding but also extremely fulfilling. It can also constitute one of the sciences in an EBACC qualification. Due to the level of complexity involved, we would require any applicants for the course to be in either set 1 or 2 for both Mathematics and English, to ensure the best chance of a successful outcome.

# FILM STUDIES

LEVEL OFFERED:	GCSE
SUBJECT CODE/EXAM BOARD:	EDUQAS
CONTACT:	MR S. WOOD

## WHAT WILL I STUDY?

Film Studies is designed to draw on learners' enthusiasm for film and introduce them to a wide variety of cinematic experiences through films which have been important in the development of film and film technology. Learners will develop their knowledge of US mainstream film by studying one film from the 1950s and one film from the later 70s and 80s, thus looking at two stages in Hollywood's development. In addition, they will be studying more recent films – a US independent film as well as films from Europe, including the UK, South Africa and Australia.

Students will study the ways in which meanings and responses are generated through film

- how films are constructed – through cinematography (camerawork and lighting), mise-en-scène (how sets, locations, props and costume are used in film), editing and sound
- how films are organised into structures – genre (the different kinds of film) and narrative (how films tell their stories)
- how films can be used – artistically (the aesthetic qualities of film) and as a way of communicating ideas and issues (representation)
- how learners make sense of film through exploring a film's relevant contexts (social, cultural, historical, political and institutional), through an awareness of key aspects of the history of film and through specialist writing on film.

In addition, the specification aims to enable learners to apply their knowledge and understanding of film to filmmaking or screenwriting.

All films are chosen to fit in with and respect the school's ethos.

## HOW WILL I BE ASSESSED?

Students will be complete 2 exams as well as a coursework component that includes either an opening sequence to a film or a screenplay.

Paper 1 – 35%. Key developments in film history. A comparative study of 1950's and 2000's films and how Hollywood has changed over time.

Paper 2 - 35%. Narrative representation and film style. A comparative study of British, global English and foreign language films. This exam will focus on film language as well as the social contexts.

NEA - 30%. Completion of an opening film sequence or screenplay.

Due to the academic vigour of the course, and to ensure the best outcome, Film Studies is recommended for those that love watching films and enjoy writing essay.

# FINE ART

LEVEL OFFERED:	GCSE
SUBJECT CODE/EXAM BOARD:	SUBJECT CODE/EXAM BOARD: FA01/02 EDEXCEL
CONTACT:	MR L. BAZEN

## WHAT WILL I STUDY?

Fine Art students will study the creative process of art, craft and design in order to develop as effective and independent students, and become critical and reflective thinkers with enquiring minds. Students will learn to develop creative, imaginative and intuitive capabilities when exploring and making images, artefacts and products. Students of Fine Art will become confident in taking risks and learn from experience when exploring and experimenting with ideas, processes, media, materials and techniques. Students will develop critical understanding through investigative, analytical, experimental, practical, technical and expressive skills. Students will learn to develop and refine ideas and proposals, personal outcomes or solutions with increasing independence. Through their studies, students will acquire and develop technical skills in a broad range of media, materials, techniques, processes and technologies with purpose and intent. They will expand their knowledge and understanding of art, craft and design in historical and contemporary contexts, societies and cultures. Finally, students will develop an awareness of the different roles and individual work practices evident in the production of art, craft and design in the creative and cultural industries.

More specifically, Fine Art is work that is developed primarily to communicate visually appealing ideas and meanings rather than to serve a practical or commercial function.

Materials used: Wide range of drawing media, acrylic and watercolour paints, collage, printing, oil pastel, chalk pastel and mixed media.

## HOW WILL I BE ASSESSED?

Students will be assessed on 2 units of coursework.

UNIT 1: Personal study which is worth 60% of your overall mark

UNIT 2: Externally set assignment which is worth 40% of your overall mark

There is no written exam. Students will have a period of sustained working under controlled conditions as part of Unit 2. Students will work for a total of 10 hours over two days on a final piece that has been planned and practised. We call this the art exam.

For both Unit 1 and 2 students will be assessed on the following objectives:

1. Develop (18 marks)
2. Refine (18 marks)
3. Record (18 marks)
4. Present (18 marks)

# FOOD PREP. & NUTRITION

LEVEL OFFERED:	GCSE
SUBJECT CODE/EXAM BOARD:	AQA 8585
CONTACT:	MRS T. AKINTUNDE

This GCSE teaches students to understand the scientific principles behind food and nutrition. Students will use a number of practical cooking techniques to learn how to prepare and cook food. The qualification will be demanding and give students in-depth knowledge of nutrition, food choice, where food comes from and practical cooking, as well as the ability to apply this knowledge when cooking. It will prepare them for further study, such as Level 3 Food Science and Nutrition, BTEC Hospitality or apprenticeships in the catering or food industries.

## WHAT WILL I STUDY?

- Food preparation: planning, preparing and cooking using a variety of food commodities, cooking techniques and equipment; exploring a range of ingredients and processes from different culinary traditions (traditional British and international), to inspire new ideas or modify existing recipes.
- Nutrition: exploring the functions and sources of nutrients as well as the nutritional content of food and drinks; diet and health.
- Food: understanding the economic, environmental, ethical, socio-cultural influences on food availability and production processes, and studying food provenance (where our food comes from).

## HOW WILL I BE ASSESSED?

50% Non-Exam Assessment and 50% Written Exam

The Non Exam assessment will be comprised of two separate projects:

Task 1: Food Investigation (worth 15% of the GCSE)

Task 2: Food Preparation (35% of the GCSE, including a 3-hour practical exam)

# GEOGRAPHY

LEVEL OFFERED:	GCSE
SUBJECT CODE/EXAM BOARD:	EDEXCEL B
CONTACT:	MS R. CHALLICE

## WHAT WILL I STUDY?

Geography plays a crucial role in helping understand the world we live in and the challenges we currently face. It examines local and global issues and the interactions between humans and the physical world. Geography helps us to plan for a more sustainable future for people and the environment.

The course includes topics such as:

- Natural hazards including volcanoes and cyclones
- Coping with climate change
- Living sustainably in cities
- Managing food, water and energy into the future
- Poverty and development
- The formation of river and coastal landscapes
- Biodiversity and ecosystems

There are fieldwork trips to a river and to an urban location. The data collected is used to produce graphs, GIS maps and reports, strengthening ICT skills. Geography links well with the Science GCSE as well as Mathematics, History, Business Studies and ICT

## HOW WILL I BE ASSESSED?

Assessment is entirely by examination.

Unit 1: Global Geographical Issues (37.5%)

Unit 2: UK Geographical Issues and field work skills (37.5%)

Unit 3: People and environmental issues includes a decision making exercise that assesses geographical skills (25%)

# HISTORY

LEVEL OFFERED:	GCSE
SUBJECT CODE/EXAM BOARD:	AQA J410FB
CONTACT:	MRS S. JOFFE

## WHAT WILL I STUDY?

The AQA GCSE History syllabus looks at some of the major international issues of the 20th Century, as well as how Britain has developed over the last 1000 years; from Island to Nation State. The emphasis is on both historical knowledge and on the skills required for historical research. Students develop an understanding of the nature of cause and effect, continuity and change, similarity and difference, and find out how to use and understand historical evidence as part of their studies.

## HOW WILL I BE ASSESSED?

Paper 1: This consists of two sections. Students will focus on questions based on the USA in 20th Century and the Korean and Vietnam Wars. Assessment for this unit requires students to apply their knowledge by explaining and evaluating key developments and changes over time as well as comparing different interpretations of these changes (50% of the marks).

Paper 2: A paper examining the changes in Britain over the last 1000 years. Students will be assessed on their depth of knowledge of certain issues within this period, and look at the breadth of the whole period. Students will be developing skills in usage of knowledge, causation and significance (25% of the marks).

Paper 3: A paper examining in depth the Elizabethan era. In addition, students will be studying a place in the historical environment allocated by the exam board (25% of the marks).

# MODERN FOREIGN LANGUAGES

LEVEL OFFERED:	GCSE MODERN HEBREW, FRENCH, SPANISH
SUBJECT CODE/EXAM BOARD:	AQA for MODERN HEBREW and EDEXCEL for FRENCH and SPANISH
CONTACT:	MS R. GER

## Languages are not merely a passport to an EBacc they are your window to the world!

Languages are highly valued at university and in the work place. British business is in need of more people who can speak foreign languages, with 3 in 4 British people saying they cannot hold a conversation in the top 10 languages. Take the first step to becoming a sought after asset or maybe just expand your possibilities for travel.

## Need more reasons to choose a language GCSE?

1. English is not enough. Not everyone speaks, or wants to speak English.
2. A language will always be useful, no matter what you do.
3. In class, you will study a wide range of topics all about different people and cultures, not just how to speak.
4. You can read books, watch films and listen to songs in their native language – and understand them too.
5. Languages mean business - being able to speak a language will make you really stand out.
6. They're good for you. Speaking more than one language increases your brain capacity and improves your memory.
7. It's really impressive to be able to speak a foreign language. It's a real achievement

that your friends will envy and universities and employers will love.

8. You can understand and talk to lots more people when you go abroad.
9. Using a language at work could raise your salary from 8-20%.
10. Learning languages really improves your communication skills.

## WHAT WILL I STUDY?

The course is structured around three themes and aims to teach students about subjects relevant to their current experience, as well as broaden their knowledge about the culture and traditions of the countries where the target language is spoken. Students will study the following three themes: Identity and culture; Local, national and global areas of interest; and Current and future study and employment.

The GCSE will teach students to write and speak a language spontaneously and for a particular purpose. The reading and listening comprehension units will enable students to deal with authentic materials and cope with taught language in a range of contexts. The Modern Foreign Language GCSE is designed and taught at Hasmonean High School for Boys to foster lifelong language students.

## **MODERN HEBREW - CODE: MH 8678**

Why choose Modern Hebrew for GCSE? Simple. This is the closest students can get to actually being in Israel without stepping on an aeroplane! Moreover, students will be updated with new Israeli slang, music and films, get advice on where to go and what to do in the Holy Land and much, much more. And most importantly: knowledge of Modern Hebrew is not only an academic study, it will be a very useful skill for when visiting, staying or living in Israel in present and future.

## **SPANISH**

Students will learn about the culture, festivals, traditions and communities in countries all around the world where Spanish is spoken. The course will cover topics as diverse as new technology, holidays, future plans, music and sports. Join the fastest growing language and although it might not be perceived as a language of business, with 405 million native speakers, Spanish is the second most commonly spoken language after Mandarin. Open up travel, friendships and business with Spain, South America and even parts of North America.

GCSE Spanish will give students the foundation they need to take their linguistic skills further. The opportunities to continue after with A Levels, or as an additional course at university, students can make learning Spanish a life-long adventure.

## **FRENCH**

Knowing how to converse in French will open up opportunities not available to monolingual English speakers. There are numerous benefits in being able to converse in a foreign language; it shows you have an analytical and disciplined mind, and gives students the chance to discover different cultures, people and customs. Students are able to gain a far deeper understanding of them than is ever possible without knowledge of the language. Travelling and cultural pursuits are made more rewarding and so much more

fulfilling than if you speak only English. Most of all, being able to communicate on any level with somebody from a different culture in his or her language is invaluable. Languages are also very well-regarded in the workplace in any field and not limited to teaching and interpreting.

## **HOW WILL I BE ASSESSED?**

Grading is 9-1 and there is the option of taking either Foundation or Higher. The Foundation paper will enable you to gain a maximum grade of 5. All four papers are equally weighted and cover all four Language skills.

Paper 1: Listening paper

Paper 2: Reading paper

Paper 3: Speaking paper

Paper 4: Writing paper

# MUSIC

LEVEL OFFERED:	GCSE
SUBJECT CODE/EXAM BOARD:	AQA 8271
CONTACT:	MRS C. ALGRANATI

## WHAT WILL I STUDY?

- Classical Music from 1750 - 1910
- Popular Music, including Broadway Musicals, Film Music and Gaming Music
- Traditional Music including Blues, Fusion and Folk Music
- 20th Century Classical Music.

Acceptance to Music GCSE is dependent on:

1. A minimum standard of Grade 2 on an instrument at the start of the course;
2. Successful completion of an aural test and interview with Mrs Algranati.

## HOW WILL I BE ASSESSED?

The music course is made up of three compulsory units:

- Performing 30% (controlled assessment)
- Composing 30% (partly controlled assessment)
- Listening and Appraising 40%

# PHYSICAL EDUCATION

LEVEL OFFERED:	GCSE/BTEC – to be confirmed depending on cohort
SUBJECT CODE/EXAM BOARD:	EDEXCEL
CONTACT:	MR M. TUTTY

## WHAT WILL I STUDY?

Students will:

- Develop theoretical knowledge and understanding of applied anatomy and physiology; movement analysis and physical training. Students can use this knowledge to analyse and evaluate performance and devise informed strategies for improving/optimising their own practical performance.
- Develop theoretical knowledge and understanding of the contribution that physical activity and sport make to health, fitness, and well-being. Students will learn how these can impact on their own performance, including the psychology of sport and socio-cultural influences.
- Perform effectively in different physical activities by developing skills as well as techniques and selecting and using tactics and strategies.
- Develop knowledge and understanding of data analysis in relation to key areas of physical activity and sport.

## HOW WILL I BE ASSESSED?

Unit 1 – Examination is externally assessed through two written examination papers, of 1h 45 minutes and 1h 15 minutes in duration. This will contribute 60% of the total marks.

Unit 2 – Non-exam assessment, 40% is assessed in two sections.

Section 1 – Three practical performances in the role of player/performer. Students can achieve 30% of the marks from the three performances.

Section 2 – Analysis of performance in one of the chosen activities. This will be worth 10% of the marks and should include planning, performing and evaluating a training programme.

# Policy for Dropping or Changing GCSE Subjects

With the exception of those beginning Year 10 on a reduced curriculum, all students will study the following subjects:

- English Literature
- English Language
- Mathematics (and Further Mathematics)
- Double or Triple Science
- BH or IGCSE RS or HIPE
- 3 Options

*This is a minimum of 8 GCSEs and a maximum of 11. Parents should also note, the average number of GCSE's sat in Barnet from 2023 was just over 8 and universities are also looking for students to have sat a minimum of 8 GCSE's at once for entry to Russell Group universities post Year 13. To remain competitive, we suggest this minimum of 8 for all students.*

## **CHANGING OPTION SUBJECTS**

Students will be able to change option subjects up until the end of November of Year 10. Students can only change onto a course if the Subject Leader agrees that it is feasible for the student to catch up on the work missed. Requests should be made to the Year Leader who will then process the request and notify their parents of the decision. Students who change course must catch up the work within the timeframe set by the Subject Leader.

## **DROPPING OPTION SUBJECTS**

Students will not be allowed to drop option subjects in Year 10-11 unless they have a letter from a consultant and the issue raised is consistent with evidence seen in school. No requests will be granted before there has been a meeting with the Headteacher to discuss the issue.

## **SPECIAL EDUCATIONAL NEEDS (SEND):**

The School's SENDCO, Mrs Sireling ([r.sireling@hasmonean.co.uk](mailto:r.sireling@hasmonean.co.uk)) can be contacted regarding any SEND issues. Where students require additional support in order to access education, personal learning plans will be developed between school and home to ensure appropriate adjustments are made and students can thrive.
